10 BENEFITS OF A FEMINIST GREEN NEW DEAL

Feminist Green New Deal policies will include the needs of **EVERYONE** - especially women, people of colour, LGBTQI people and disabled people.

It will ensure that new green jobs benefit ALL not just white men.

It will ensure that new housing is designed to facilitate a fair division of domestic labour and greater energy efficiency.

It will invest in public transport, walking and cycling in towns and cities putting the needs of women and underrepresented groups at the centre of these plans.

It will channel finance into green industries including care, education and other female-dominated, low-carbon sectors.

It will enable communities to be involved in the transition to a green economy, especially women and marginalised groups.

It will provide affordable and accessible health care, childcare, adult social care and public services, giving a better quality of life for all.

It will invest in care, creating 2.7 times as many jobs and producing 30% less greenhouse gas emission than a construction-led Green New Deal

It will implement a 30-hour paid working week for all helping to address the unequal burden of unpaid care work on women.

It will give paid care leave for all, making employment more inclusive, rewarding and sustainable.
